Career Objective

Motivated B.Tech graduate seeking opportunities in Frontend Development, MERN Stack Development, and Automation Engineering. Passionate about technology, problem-solving, and building efficient solutions. Looking to contribute to a dynamic organization while enhancing my technical and professional skills.

Academics Details

Year	Degree/Certificate	Institute	%
2022 - 2026	B.Tech CSE	Kurukshetra University, Kurukshetra	8 CGPA
2021 - 2022	XII, HBSE	GSSS School, Panipat	78.4%
2019 - 2020	X, HBSE	Nehru Public School, Panipat	86.4%

Technical Skills

- **Languages:** Python, C++, JavaScript, HTML
 - **Frameworks:** Next.js, React.js, Node.js, Express.js
- **Databases:** MySQL, MongoDB
 - **Tools & Testing:** Git, Postman

Key Projects

Tracktern AI – AI-Powered Job Application Tracker (React.js, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs):-
Live Link:- <https://tracktern-ai.vercel.app/>

- ✓ Developed a full-stack job application tracking platform using the MERN stack.
- ✓ Implemented secure user authentication and authorization using JWT.
- ✓ Built features to add, update, delete, and manage job applications with different statuses (Applied, Interview, Rejected, Offer).
- ✓ Integrated AI-powered assistance to help users organize and track their job search process efficiently.
- ✓ Designed a responsive and user-friendly dashboard for monitoring application progress.
- ✓ Developed RESTful APIs and managed data storage using MongoDB.

CROMTECH SOLUTIONS WEBSITE CLONE (HTML, CSS, JavaScript, React.js):-
Live Link:- [cromtech-clone.vercel.app](#)

- ✓ Developed a fully functional clone of the **cromtechsolutions.info** website
- ✓ with responsive design for desktop and mobile.
- ✓ Implemented dynamic UI components using **React.js** and optimized styling with **CSS3**.
- ✓ Replicated website structure, layout, and interactive features to closely match the original.
- ✓ Applied modern web development practices including component-based architecture and reusable code patterns

MENTAL WELLNESS WEB APPLICATION(React.js, Node.js, Express.js, MongoDB Atlas, REST API, Vercel,Render):-
Live Link:- [mind-wellness-app-z9yo.vercel.app](#)

- ✓ Developed a full-stack web application to help users track daily moods and improve mental wellness.
- ✓ Built responsive frontend using **React.js** with mood tracking, breathing exercise and music player features.
- ✓ Designed RESTful APIs using **Node.js & Express** for storing and retrieving mood data.
- ✓ Integrated **MongoDB Atlas** cloud database for real-time data storage and history tracking. .
- ✓ Deployed the application using **Vercel (frontend)** and **Render (backend)**.
- ✓ Resolved real-world deployment issues such as **CORS, environment variables and cloud DB connectivity**.

FLEETLINK (Developed a web-based fleet management and booking system using the MERN stack):-
Live Link:- <https://fleetlink-mauve.vercel.app/>

- ✓ Implemented CRUD operations to allow administrators to add, update, view, and delete vehicle records efficiently.
- ✓ Designed a real-time vehicle availability **system** enabling users to check available vehicles based on booking timeslots.
- ✓ Built a time-based booking module (from → till) to prevent double booking and ensure fair scheduling.
- ✓ Created a responsive and user-friendly interface using React.js for both admin and customer roles.
