PROJECT

CROMTECH SOLUTIONS WEBSITE CLONE (HTML, CSS, JavaScript,

React.js):- <https://github.com/kajalkohli9350/cromtechsolutions>

- ✓ Developed a fully functional clone of the **cromtechsolutions.info** website
- ✓ with responsive design for desktop and mobile.
- ✓ Implemented dynamic UI components using **React.js** and optimized styling with **CSS3**.
- ✓ Replicated website structure, layout, and interactive features to closely match the original.
- ✓ Applied modern web development practices including component-based architecture and reusable code patterns

MENTAL WELLNESS WEB APPLICATION:-

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, REST API, Vercel, Render

- ✓ Developed a full-stack web application to help users track daily moods and improve mental wellness.
- ✓ Built responsive frontend using **React.js** with mood tracking, breathing exercise and music player features.
- ✓ Designed RESTful APIs using **Node.js & Express** for storing and retrieving mood data.
- ✓ Integrated **MongoDB Atlas** cloud database for real-time data storage and history tracking.
- ✓ Deployed the application using **Vercel (frontend)** and **Render (backend)**.
- ✓ Resolved real-world deployment issues such as **CORS, environment variables and cloud DB connectivity**.

FLEETLINK- FLEET MANAGEMENT& BOOKING SYATEM (MERN Stack):-

Developed a **web-based fleet management and booking system** using the**MERN stack (MongoDB, Express.js, React.js, Node.js).**

- ✓ Implemented CRUD operations to allow administrators to add, update, view, and delete vehicle records efficiently.
- ✓ Designed a real-time vehicle availability **system** enabling users to check available vehicles based on booking timeslots.
- ✓ Built a time-based booking module (from → till) to prevent double booking and ensure fair scheduling.
- ✓ Created a responsive and user-friendly interface using React.js for both admin and customer roles.

ACHIEVEMENTS

- ✓ Frontend Web Developer Certification – Udemy
- ✓ Complete MERN stack course from W3
